OUTLINES.

President Roosevelt was the speaker yesterday at Provinceton, Mass., on the occasion of the celebration of the landing of the Pilgrim Fathers; the President digressed in order to declare that the Administration will not waver in its determination to prosecute corporatons and rich criminals who violate the laws of the Republic; declared his belief that some of them are trying to discredit the administration by creating disturbance in the stock markets.——An examination of the failed Exchange Bank of Macon, Ga., shows that the capital stock and surplus were made way with and that the shortage is $8,500 more than the capital stock and surplus.——At the North Carolina rate hearing in New York yesterday, Governor Glenn proposed to the Southern Railway's counsel that all proceedings be stopped, so the controversy can go to the Supreme Court; it was submitted to the court that carbuilding material, labor, etc., has gone up.——The Arabs at Casa Blanca, Morocco, have attacked the French army again, but the fanatics were defeated with great loss. ——The telegraph companies are claiming that they are not hampered by the strike of the telegraphers, but the strikers still claim to be confident. ——Near Camden, N. J., last night a negro set fire to a Farmer's barn and while the farmer and others were putting it out he went to the house murdered two women and robbed the house.——New York markets: Money on call, steady, 2 to 2 3-4 per cent., ruling rate 2, closing bid 2 1-4, offered at 2 3-4; spot cotton quiet 13.25; flour quiet and unchanged; wheat strong, No. 2 red 93 3-4 elevator; corn firm, No. 2, 62 elevator; oats strong, mixed 59 1-2; turpentine firm 60; rosin firm.

Reports of fine crops in North Carolina and South Carolina account for those smiles in business circles.

A contemporary says "the marriage laws are too loose." They are rather calculated to make some couples get loose.

Mr. John D. Rockefeller is referred to in a newspaper article as "Jekyl and Hyde." He has reason to believe that thing overnment wants to tan his hide.

The newspaper ghoul who goes around scooping in money with fake interviews is guilty of such a bad form of obtaining money under false pretence that he isn't fit to trail with the "undesirable citizens" class.

As the late Sam Jones would say, "Quit your meanness." If you don't some of your partners in devilment may take the immunity bath and get you into the soup by what they tell the court.

It is said "the relations between Hoke Smith and Tom Watson are strained." The only fear is that they didn't get strained in time to prevent the Democratic party in Georgia from getting strained.

Edmund Rostand, a playright, after spending much time and labor in the production of a play, became disgusted with his work and called it in. If other authors will relent and come right on up to the mourners' bench in like fashion all will be forgiven.

This Summer Vice President Fairbanks on fame by rescuing a young woman from a lake, and now comes the Hon. Williams Jennings Bryan getting credit for rescuing a pretty girl from an automobile accident. Mr. Fairbanks and Col. Bryan have the advantage of other married men in being able to explain to their inquiring wives that their presence at the psychological moment, when "a young woman" or "a pretty girl" gets into trouble is nothing more nor less than a part of the work of their press agents.

WARM WIRELETS.

James Rucker, a negro, was hanged in all at Asheville, N. C., yesterday, shortly after noon. Rucker was convicted of criminal assault on his step daughter. It is said that this is the first time in the history of this State that a negro has been hanged for such a crime against one of his own race.

J. D. Duzzell, negro editor who is held responsible for much of the recent race trouble on the eastern shore of Virginia, was brought to Norfolk locked in the Norfolk jail. Uzzell surrendered to Colonel Nottongham, of the Virginia militia, at Onancock, Monday, and asked to be sent to a safe place, there being great danger that he would be lynched.

TRUCKERS TO MEET

Eleventh Annual Gathering of Stockholders of E. C. T. & F. G. Association To-Day

AN IMPORTANT SESSION

Continuance of Organization Said to Depend Upon Action of Members Today—Executive Committee and Directors in Session.

Following two sessions of the Executive Committee held here yesterday and a meeting of the Board of Directors to be held this morning at 10:30 o'clock, the stockholders of East Carolina Truck and Fruit Growers' Association will hold their eleventh annual meeting at 2:30 o'clock this afternoon in the New Hanover Court House. It is expected that the attendance at this meeting will be larger than for several years as the railroads have given a reduced rate and some very important business affairs, involving the continuance or dissolution of the organization, will be transacted at this gathering. Until there came deflections from the ranks the past year and the year before, the Association was one of the most compact organizations of its kind in the country and was and is largely responsible for the wonderful development of the industry in this section. That its life hangs in the balance now, so to speak, is a matter of concern not only to the growers themselves but to every business interest in the territory and it is to be hoped that arrangements will be made for continuing the machinery of this splendid organization, which has accomplished so much. Those who are well informed as to the exact status of affairs say that the meeting this afternoon will determine the question.

The deliberations of the Executive Committee of the Association yesterday were held in the office of Mr. H. T. Bauman, secretary and business agent, Room No. 3, Masonic Temple. All members were present except Mr. J. A. Brown, of Chadbourn, viz: Chairman William E, Springer; Secretary H. T. Bauman, of Wilmington; Messrs. W. L. Hill, Warsaw; J. A. Westbrook, Mount Olive; J. S. Westbrook, Wallace. The business of the meeting was largely composed of hearing the annual report of Secretary Bauman and formulating its own report to the Board of Directors, which will be submitted this morning. The Committee also heard the annual report of President William E. Springer, which will be made to the stockholders this afternoon. These reports are not given out until they are submitted to the stockholders, but it is understood that all are most comprehensively prepared and will present many interesting facts to the growers. These reports will be incorporated with that of the Board of Directors this morning.

At the meeting of the Executive Committee yesterday the report of Attorney J. O. Carr was also read and approved and several propositions looking to the continuance of the Association will be submitted to the directors today. The first session of the committee was held yesterday morning from 10:30 to 1 o'clock and the afternoon session from 2:30 until after 6 o'clock, practically an entire day having been given to the work. The meeting this afternoon, it is understood, will be public.

ROBESON'S NEW COURT HOUSE.

Contract Awarded Yesterday to B. F. Smith, of Washington, D. C.

(Special Star Telegram.)

Lumberton, N. C., Aug. 20.—At a meeting of the board of county commissioners held today the contract for the erection of a new court house for Robeson county was awarded to B. F. Smith, of Washington, D. C., the building to cost forty-four thousand six hundred and seventy-four dollars. According to contract, the work will begin September 1st, and will be concluded by June 1st next year. There were eight bidders present.

Old Veterans Are These.

Those two proficient followers of Walton, Waltar E. Yopp and J. W. Fleet, got home yesterday evening from a fishing expedition at Wrightsville Beach and declare they never had a better sport. They caught 155 fine pig fish, two large drum and a variety of others, running the total number up to 196. One of the drum caught was over three feet long by the tape. It is hard to beat this pair when they go in for sport together.

HAD ANOTHER FULL HOUSE

Fourteen Cases Before Mayor Springer Yesterday, Quickly Following Monday's Heavy Docket—Several to Roads and Farm.

Unless the number of defendants in the police court begins to diminish the men of the department will be open to charges of "pernicious activity." Folowing a big session of the court Monday, which was to have been expected, there were fourteen cases docketed again in the municipal temple of justice yesterday. As a result fines of upwards of a hundred dollars were imposed, one or two went to jail for the higher court and several went to the farm and to the roads.

Dorah Williams, the drunken colored woman, hauled in from Nixon street Monday afternoon and who gave three officers a lively encounter before she could be placed in a cell at the police station, was given 30 days on the farm for an assault and an additional 30 days for disorderly conduct and drunkenness.

Logan McKoy, a young negro arrested with three others Sunday for engaging in a crap game, and who escaped from the patrol wagon by jumping through the side after he had been arrested, was captured Monday night by Officers W. G. Brinkley and D. W. Coleman. He was bound over to the higher court yesterday and went to jail in default of $50 bond. Gilbert James, colored, at whose house Logan was arrested, was charged with interfering with the officers, but James' interference seemed to be largely "rag chewing," and he was discharged, however, with a better impression of how officers should be treated in the future.

B. T. Henderson, charged with being drunk on a street car, was fined $10 and costs, the Mayor emphasizing the fact that this administration will stand for no unbecoming conduct in public conveyances.

Poor old Jordan McIver was given 30 days with Superintendent Hocutt for a plain case of drunkenness. Mary Barnhill, colored, arrested by Officer Brinkley for disorderly conduct was fined $10 and costs. Hattie Pearsall, colored, drunk and disorderly, was sent to the farm for 30 days. Other cases were uninteresting.

PARK SITE WITHDRAWN.

Mr. W. A. French Tires of Inaction on Part of Finance Board.

Tired of inaction and indifference on the part of the Board of Audit and Finance of the city with respect to his tender to the municipality of a beautiful site for park purposes in the southern part of the town, Mr. W. A. French yesterday addressed a letter to that body formally withdrawing the donation made several months ago and the park site then offered is not now available. The communication of Mr. French would have been read at the meeting of the Board of Audit and Finance last night, but there was no quorum and no meeting was held. It is sufficient, however, to know that the proposition is withdrawn and the prospects for a park, at least so far as the southern part of the city is concerned, is doomed. The tender of Mr. French and of adjoining property by Mr. Godfrey Hart was unanimously accepted by the Mayor and Board of Aldermen, but when it reached the other board, it was postponed from time to time for one reason or another until the donor tired of the indifference to his gift and withdrew it.

With the Summer now almost gone, the only prospect for a public park seems to be in the tender of a very eligible site out of the Carolina Heights property and a tender of Mrs. W. A. Wright in connection therewith. At the last meeting of the Board of Aldermen the last tender of a site was referred to the already overworked Streets and Wharves Committee. It is sincerely to be hoped that the matter will get before the Board of Audit and Finance and be accepted in some shape before this proposition too is withdrawn. There are many people in Wilmington who pay taxes and would like to see a park established somewhere, regardless of influences that seem to be working to the contrary.

RED MEN'S DAY.

Outing Tomorrow at Wrightsville Beach Under Auspices I. O. R. M.

If the weather is fair an immense crowd will go to Wrightsville Beach tomorrow for the celebration of "Red Men's Day," at that popular resort under the auspices of Cherokee Tribe No. 9, of this city. The Consolidated Company has promised an excellent schedule all day and at night, and the Red Men's committees have prepared a programme of athletic events that will be quite interesting. If the weather indications seem auspicious, a part of these events will be held over until night, when it is expected that the largest crowd can be present. A round trip fare of 35 cents from any part of the city is given by the Consolidated Company. A large party of Red Men from the army post at Fort Caswell are expected up for the day and a feature of the exercises will be a sham battle between the regulars and a band of Red Men in costume from the Wilmington and Southport tribes.

Big Mid-Week Dance at Lumina tonight. Express trains at 8 and 8:30.

CHILDREN ARRIVED

Young Folks From I. O. O F. Home at Goldsboro Guests of Wilmington Friends.

TO CAROLINA BEACH TO-DAY

All Day Outing and Big Basket Picnic on Ocean Side—Where the Children are Located in the City—Amusements.

Happy as larks, joyous in their anticipation of a week's delightful hospitality as guests of the Wilmington lodges of Odd Fellows and the Daughters of Rebekah, the ladies, branch of the order, ninety-three children, their superintendent, matron and teachers, the party all told numbering more than a hundred from the I. O. O. F. Home at Goldsboro, arrived in the city yesterday morning on a special coach attached to the regular train from the North for their annual outing at Wilmington and her seaside resorts. The visitors were met by members of the committee in charge of the entertainment and many ladies and many others of whom the little folks will be guests while they are here. There were sub-committees in charge of baggage, assignment to homes, etc., and the small army of bright youngsters and little misses were handled with the very least confusion and the greatest ease. Within an hour after the party arrived all were in the comfortable homes assigned to them in the different sections of the city.

The visitors remained in the city all the morning and afternoon and were shown such little individual acts of courtesies as their hosts were able to provide for them, the moving picture shows having been a popular retreat for many of them. Tomorrow the first set feature of the entertainment of the visitors as a whole will be in the form of an all day trip and basket picnic at Carolina Beach, the latter being under the auspices of the Daughters of Rebekah. It is especially desired that all Odd Fellows attend and bring along lunches to be tendered to the committee for the basket picnic. It is hoped to have a number of the members of the Southport lodge up for the day. Friday night the Daughters of Rebekah will give an entertainment in the city for the benefit of the visitors and they will take part in the exercises of the evening. It is hoped to arrange for some exercises by the children in the pavilion at Carolina Beach today. The steamer Wilmington will leave at 9:15 o'clock this morning and return at 7 o'clock or thereabouts.

The children and visitors are being entertained while in the city as follows:

W. H. Howell, 716 Market—Supt. J. F. Brinson and wife, Misses Pearl and Hattie Brinson , Mrs. C. F. McArtan, Misses Nelia and Barbra Nicholson.

MASONS ON TO WALLACE

Corner Stone Laying of Handsome New Baptist Church by St. John's Lodge of This City—An Interesting Ceremony in Duplin.

A large party of Wilmington people, including St. John's Lodge of Masons, of this city, will go up on the Northern Atlantic Coast Line train this morning to Wallace, N. C., the object of the visit being to witness and participate in most impressive ceremonies that will mark the laying the corner stone of a very handsome Baptist Church, which has just been completed there. The exercises of laying the corner stone will be in charge of St. John's Lodge No. 1, A. F. A. M, Which represents the Grand Lodge of the State on this occasion. Although it doubtful if Governor Glenn will reach home from New York in time, the large crowd that will assemble on the church grounds will expect to hear an address from him and another feature will be a big basket picnic served by the good ladies of that community. There will also be an address by Rev. J. T. Jenkins, of Wilson, and a welcoming address by Mayor A. L. McGowan, of Wallace, yesterday morning to get everything in readiness for the ceremonies. The Coast Line has given a reduced rate on account of the exercises and it is expected that many will attend from Wilmington. The return will be this evening on the regular train.

The officers of St. John's Lodge who are expected to constitute the Grand Lodge for this occasion are: Grand Master, Jno. S. McEachern; Deputy Grand Master, B. A. Merritt; Grand Senior Warden, M. W. Jacobi; Grand Junior Warden, C. H. Holsenback; Grand Secretary, A. S. Holden; Grand Treasurer, H. Burkheimer; Grand Senior Deacon, Jno. C. Wessell; Grand Junior Deacon, F. V. Huggins; Grand Tiler, R. H. Bradley; Grand Stewards, M. S. Lanier and A. B. Corinth. The regular tiler of St. John's Lodge is Mr. A. W. Allen but Grand Tiler Bradley, one of the oldest Masons in the country, will be there and Mr. Allen gracefully gave way to him.

Music for the exercises will be furnished by a special quartette composed of Messrs. Joseph Fenley, Greene Fenley, Gilbert Foard, A. S. Holden with Mr. Alf H. Yopp, accompanist.

LABOR DAY CELEBRATION.

Committee Met Last Night and Further Discussion Programme.

The central committee in charge of the arrangements for the celebration of Labor Day on Wrightsville Beach the first Monday in September met last night and further canvassed the plans for the big event and will announce the programme in full within the next few days. There will be a parade in the city before the hour for leaving for the beach and there will be given a programme of athletic and other entertaining events. It is hoped to have a distin guished speaker here for the day from a distance. The committee is very much encouraged at the outlook for a successful celebration and the programme when it is announced in a few days will show a day of interest for all. The Consolidated Company has promised a splendid schedule and the public in general will attend the celebration.

Mr. Geo. Harriss Not Improved.

Friends in this city will regret exceedingly to know that Mr. Geo. N. Harriss, who went to Saluda, N. C., about two weeks ago for his health, is not improved. He is suffering with a muscular affection on one side and since he has been in the mountains one entire side has become affected. Mrs. Harriss accompaied him on the trip and later his son, Mr. Frank Harriss, left to be with him.

ISSUE THE WARRANTS

Southern Railway Employes Charged With Responsibility For Auburn Wreck.

THE NEWS FROM RALEIGH

Two Big Corporations Chartered—Auditor Dixon to Speak in Anson. Movement For an Auditorium in Capital City—Notes.

(Special Star Correspondence.)

Raleigh, N. C., Aug. 20.—Coroner Separks this morning issued the warrants for the arrest of the four employes of the Southern Railway whom the jury found yesterday to be responsible criminally for the terrible collision of freight and passenger trains at Auburn, near Raleigh on the evening of August 6th. They are Engineer W. W. Rippey and Conductor C. M. Oakley, of the passenger train for criminal negligence in forgetting their orders to meet the freight at Auburn and running by that station; and Chief Train Dispatcher B. P. Ketchum and Operator Victor Parvin, of Durham, for negligence in not observing the rule to use the "middle-order system" so that the signal board at Auburn would have shown a red light indicating a wait for another train in the block. The warrants charge manslaughter for the reason that the collision caused the death of Engineer W. C. Parker and Fireman Robt. Young, of the freight train, and Fireman Bethel, of the passenger train. The warrant for Conductor Oakley was sent the Sheriff of Guilford to be served at Greensboro and the warrant for Engineerd Rippey to Burlington to be served on him at his home there. The warrants for Chief Train Dispatcher Ketchum and Operator Parvin were sent to Durham, their headquarters being there.

It seems that when the arrests are made the coroner will not have the right to bail the prisoners, despite the fact that manslaughter being a bailable defense, the parties will be entitled to bail. The programme, therefore, is for the arrests to be made and and the parties brought here on a morning train so that they will have time to take out writs of habeas corpus during the day before some judge and give the necessary bonds which all will certainly be able to do. This will probably be tomorrow or certainly the day following. These prosecutions are under the act of the last Legislature making trainmen criminally responsible for accidents due to their negligence. Much sympathy is expressed especially for Engineer Rippey and Conductor Oakley, on whom the special burden of the offense rests.

The Ridgeview Cotton Mills, of Newton, was chartered today with $100,000 capital authorized and $21,000 subscribed by H. F. Smith, M. L. Setzer, and others for operating cotton mills.

Another charter is for the Henderson Manufacturing Co., for the manufacture of carriages, buggies and other vehicles. The capital is $250,000 subscribed and $40,000 subscribed by R. J. Corbitt, R. B. Powell and others.

Dr. B. F. Dixon, State Auditor, leaves tomorrow for Wadesboro, to deliver the address for a reunion of Confederate Veterans of Anson county.

The Raleigh Aldermen last night received a committee of the Chamber of Commerce in effect protesting against the proposition to tear away the present municipal building and erect on the site a combination building and auditorium, the project being to have an auditorium that will seat about 2,500 people.

The Chamber of Commerce wants a separate auditorium provided that will seat at least 5,000. The result of the conference was that the Chamber of Commerce Committee withdrew without having accomplished anything and the aldermen will proceed today to advertise for the election to be held in September for the $100,000 bonds for the project for the new municipal building and auditorium. It is admitted that many members of the Chamber of Commerce will oppose the project. Both sides expressed regret that during the conference that it seems impossible for the citizens to get together not only as to the location and character of the much needed auditorium but also as to any and all other matters of general municipal advancement. During the discussion an alderman made the charge that there was an effort to unload on the city the old Academy of Music building, but the committee declared that such was not the case and that in fact the Academy building had really been sold during the last few days to P. M. Brown, of Charlotte, for $35,000. It is understood that the plan is to convert this into a hotel.

No Quorum for Meeting.

The meeting of the Board of Audit and Finance last night had to be postponed on account of the lack of a quorum. Only Mr. M. G. Tiencken, member from the Fifth ward, and Capt. T. D. Meares, the clerk, were present. It was stated that there were no important matters to come before the meeting anyway.

CRAMPS TO LOCATE IN NORFOLK.

It is evident that Norfolk and vicinity is to become one of the greatest shipbuilding points in this country. The natural advantage of Norfolk make it a city of destiny, so to speak, and it is gratifying to note its position as one of the progressive cities of the South, indeed of the Republic.

From the Norfolk Virginian-Pilot it is learned that the Cramps, of Philadelphia will locate a big shipbuilding plant at Norfolk. Says our esteemed Norfolk contemporary:

"Edward S. Cramp, late of the Cramp Shipbuilding Company, of Philadelphia, associated with George W. Norris, of the banking firm of Edward B. Smith & Co., of No. 511 Chestnut street, Philadelphia, have purchased for ninety-five thousand dollars a piece of property fronting one thousand feet on the main harbor, just opposite the Norfolk and Western station, by one thousand feet on Pescara Creek, with twenty-five to thirty feet of water, or enough to accommodate the largest vessel afloat, and will immediately begin the construction of a shipbuilding plant, which will be one of the largest in the country.

"The purchase was made from the Hardy Homestead Corporation, of Norfolk, with offices on Plume street, Mr. J. W. Hofigh, president.

"The papers closing this transaction were signed by Mr. Cramp and Mr. Norris nearly three weeks ago, when a large sum of money was paid over.

"The charter has been drawn and will be shortly filed with the Corporation Commission.

"A real estate company will be first formed and the property will then be turned into an extensive shipbuilding plant with a working capital of half a millio dollars.

"In addition to doing all kinds of repair work, the plant will be constructed on such a scale as to be in a position to make bids for the construction of the largest type of battleships.

"The Philadelphia source from which this information came, gave as the attorneys for the Quaker City capitalists, Mr. Tazewell Taylor and Mr. D. Lawrence Groner. Confirmation through the local attorneys could not be gotten last night, as both of the gentlemen named are out of the city.

"Mr. Edward S. Cramp will be president of the concern, the name of which has not yet been selected.

"Mr. Cramp is a practical shipbuilder, and was formerly one of the heads of the great Cramp Shipbuilding Company, of Philadelphia. He is, however, no longer connected with that company, but will give his long and varied experience to the Norfolk plant.

"Mr. Norris, who is associated with Mr. Cramp, represents large moneyed interests in Philadelphia, and those interests originally acquired the Bay Shore Railway, when it was sold by the receivers a short time ago.

"This is decidedly the most important industrial development for this section since the decision of the Tidewater-Deepwater Railway to make Norfolk its eastern terminus.

"The purchase of this large property from the Hardy Homestead Corporation will probably make the stock of that company worth four or five times as much as it has ever been. However, no definite information regarding this could be obtained.

"With large additions recently made to existing plants, and the coming of this great enterprise, Norfolk's importance as a shipbuilding centre can at once be realized."

We do not think that the Virginian-Pilot exagerates the importance of the Cramp plant to that city. Shipbuilding is bound to become a tremendous industry in this country at no far distant day. We are on the eve of it and Norfolk will be in the swim.

SHAW IS A STANDPATTER.

Things have been so squally in financial circles in New York that former Secretary of the Treasury Leslie M. Shaw has rushed into the arena to declare of his own knowledge that talk of a panic in this country is foolishness. Mr. Shaw is now at the head of one of New York's big financial institutions, and on Sunday gave out the following interview on the present financial and industrial conditions of the country.

"Our farms produce more than $6,500,000,000 per annum, and the prospect is good for an average crop. Our mines yield more than $1,500,000,000, and our forests more than $1,000,000,000. And neither of these sources of wealth has been exhausted. The output of our factories, in other than food products, is $12,000,000,000, and no fires have been extinguished. The railways earn more than $2,000,000,000, and they are all in successful operation. The payrolls of our factories and railways aggregate, approximately, $3,500,000,000, and the scale of wages has not been reduced. In other words, the real sources of the people's wealth have not yet been affected, and the ability of industrial concerns to pay dividends is not measured by the market price of their stocks. Logical reasons for serious conditions are, therefore, wanting. Psychological reasons are never wanting.

"If I judge correctly, the people will have exactly what they expect. If those who have money in the banks refuse to grant accommodations, and if the consuming public decline to place orders, then we will very soon witness the effects. Let those who think that times of disaster follow each other at regular intervals bear in mind that this country has never yet experienced a period of severe depression that was not traceable to financial or economic agitation or legislation, and usually to both.

"In 1893 the redemption of greenbacks in silver instead of gold was openly advocated; the party in power was under promise to remove the protective tariff from our industries, and the free coinage of silver at the ratio of 16 to 1 was championed by prominent members of both parties. The country might have survived any one of these sources of alarm, but it could not survive all three.

"At this time no one questions our financial system, and the tariff will not be touched for at least eighteen months. Some check in the speed at which we are going is most desirable, and the checking process has probably begun. It will now require a fair measure of confidence and courage to prevent undue retardment in our industries. Capital cannot be forced into activity, but it can be forced out of activity. I have never seen the time when universal sanity was more essential to our well being."

This is our old friend, High Price Shaw, who takes the above confident view of things and dashes it with a slight warning. He is apparently a cheerful optimist, and an inveterate standpatter. We rather think that he has come to the scratch to let it be known hat he is the champion of a high tariff. He has long had Presidential aspirations and he may be putting in his oar for the support of the high tariff Republicans as against Secretary Taft's declaration that it would be unwise and unsafe for the Republican party not to commit itself to an early revision of the unreasonably high, unjust and burdensome tariff—a tariff that is all out of date and is nothing short of imposition on the masses of the American people.

CURRENT COMMENT

—The next serious proposition now before the Democrats of South Carolina is whether or not they will succeed in obtaining campaign lectures from Senator Tillman next Summer at reduced rates.—Charlotte News and Observer.

—Gov. Glenn, of North Carolina says the time is not ripe for a Southern Democratic to be nominated for the Presidency. Gov. Glenn shouldn't imagine that because he isn't ripe for the nomination, nobody is.—Savannah News.

—With no desire to cause any pain to the other aspirants it may be stated that the "hotel chat" around this burg is that Speaker Jusitice is a "dark horse" for the gubernational nomination. Mr. Justice is up in New York at present and is making a reputation in his cross-examination of the railway officials in the rate hearings Should he enter the race it may be said he will make it warm.—Greensboro Record.

—Dr. Clark a neurologist of New York, declares that tobacco is the chief cause of the increasing number of degenerates. He says tobacco poisons the vascular system of the heart, deranges the whole nerve apparatus and tends to produce chronic congestion of the brain and spinal cord. Now the question on the back platform next a cigarette fiend, or did he come in contact with a woman dipping snuff? —Savannah News.

—We are glad that the colored people of North Carolina have excelled the colored folks of any State in the South in their exhibit at the Jamestown Exposition. North Carolina is the only State to have an appropriation—and that of $6,000—for the installing of such an exhibit, and she gave no less distinguished a man than her Governor to make the address on Negro Day at the exposition. In today's paper there is an account of the speech. North Carolina has the best negro population of any State in the South and we are glad of the race enterprise and race pride they have shown in having an exhibit at the Exposition.—Charlotte News.

—The colored Odd Fellows of North Carolina who have been in annual convention in Salisbury this Work, displayed a commendable spirit when they adopted resolutions denouncing lawlessness in general and the atrocious crime in this country Wednesday of one of their own race in particular and called upon the negroes to stand for law and order. It has been charged, and with a very great measure of truth, that the negro criminal is harbored by his own race and officers of the law frequently baffled in consequence. A clear call like that of the Odd Fellows is calculated to arouse the indifferent members of the race to a realization of their individual responsibility and to prove productive of good results. The negro's real friend in his candid counsellor and by this test the colored Odd Fellows have proven themselves worthy of confidence. — Salisbury Post.

TWINKLINGS.

—Bacon—Are you diong anything to relieve the sufferings of your neighbors? Egbert—Yes; I've just sold my phonograph!—Yonkers Statesman.

—"They say his wife has money." "Well, thati sn't his fault. They've been married only a short time."—London Opinion.

—"Papa, what is a mollycoddle?" "A mollycoddle, son, is a man whose every act meets with the approbation of his wife's mother."—Houston Post.

—She (turning from the piano)—There! How do you like that refrain? He—Splendid! And the more you refrain the better I like it.—Pick-Me-Up.

—"How did Jones make all his money?" "Judicious speculation." "And how did Brown lose his fortune?" "Dabbling in stocks."—Cleveland Leader.

—Bertie—Well, mother, I don't care what you say, I think she's a regular brick. Mother—Very likely. She certainly seems to be throwing herself at somebody's head.—Punch.

—"What do they mean by a chimerical issue in politics, anyway?" "Why, that's an issue which seriously proposes that something actually should be done about some matter which somebody is really interested in."—Puck.

The Limit of Life.

The most eminent medical scienists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period, that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being strongly urged; careless then being fatal to longlevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine, that revitalizes every organ of the body. Guaranteed by R. R. Bellamy, Druggist. 50 cents.

Mrs. Winslow's Soothing Syrup has been used for over 60 years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. It will relieve the poor little sufferer immediately. Sold by Druggists in every part of the world. Twenty-five cents bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other.

HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil.

Did you ever see a rosebush which—despite the most beneficent environment of soil—of sunshine—and of atmosphere,—seemed never to achieve a healthy growth.

A ton of manure will not help a plant that has a canker eating out its heart.

You must destroy the cause before you can remove the effect.

You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vaseline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out

Newbro's Herpicide destroys the germ, and healthy hair is the sure result.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit Mich.

Perfect Womanhood

The greatest menace to woman's permanent happiness in life is the suffering that comes from some derangement of the feminine organs.

Many thousands of women have realized this too late to save their health, barely in time to save their lives.

To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study.

If a woman finds that her energies are flagging, that she gets easily tired, dark shadows appear under her eyes, she has backache, headache, bearing-down sensations, nervousness, irregularities or the "blues," she should start at once to build up her system by a tonic with specific powers, such as

Lydia E. Pinkham's Vegetable Compound

the great woman's remedy for woman's ills, made only of roots and herbs.

It cures Female Complaints, such as Dragging Sensations, Weak Back, Falling and Displacements, Inflammation and Ulceration, and all Organic Diseases, and is invaluable in the Change of Life. It dissolves and Expels Tumors at an early stage. Subdues Faintness, Nervous Prostration, Exhaustion, and strengthens and tones the Stomach. Cures Headache, General Debility, Indigestion, and invigorates the whole female sysem. It is an excellent remedy for derangements of the Kidneys in either sex.

Snakes as War Weapons.

When Hannibal, the great Carthaginian, was fighting Eumenes of Pergamos with a fleet of very inferior strength he hit upon an artifice which would scarcely be sanctioned by the laws of what we are pleased to call civilized warfare. He discovered by means of a bogus message under a flag of truce on which ship the king was. He then caused poisonous snakes to be inclosed in earthen jars. These he distributed among several ships and ordered them to close up on the king's galley. In the melee that followed the jars were flung on to the deck. The curious bombs were greeted at first with ridicule, which soon changed to panic when the nature of their contents made itself manifest. The galley was extricated from the fight as soon as possible, and the captains of the others, believing that the king had taken flight, followed suit, with the result that Hannibal gained a complete victory.

Cats as Retrievers.

"It is claimed," said a Chicago antiquary, "that cats may be trained as retrievers—trained to swim to your slain birds and bring them back to you in their mouths. The thing sounds incredible, but look here."

He held up the photograph of an ancient Egyptian painting. Men with spears rode on the Nile. In some of the boats large cats sat on their haunches in the stern, while toward others several cats swam with dead birds in their mouths.

"This picture," said the antiquary, "proves that the Egyptians used cats for hunting dogs. If they, why not we? The original of the picture is in the British museum, where there are also several pieces of carving that display the cat in the role of a retriever."

The German and the Fatherland.

A German always remains a German. He respects and loves his fatherland, although isolated and separated from it by boundless oceans and vast continents. A German heart always remains true to the country where it first commenced to beat until it is silenced by death. As a rule, to which there are few exceptions, a man who is loyal to the country of his birth will be loyal to the country of his adoption.—Dr. Nicholas Senn.

Social Life Long Ago.

The stately dames of the court of Edward IV. rose with the lark, dined at 11 a. m. and retired to rest at 8 in the evening. Henry VIII. went back to 10 in the morning for dinner and had supper at 4. In Queen Bess' days her maids of honor began the day with a round of beef or red herring and a flagon of ale for breakfast at about 6:30 and dined at 11, and then went to the playhouse in the afternoon not later than 2, sometimes as early as 12:30, according to the order of the play and the day.

Perpetual Motion Cranks.

In the days of the Mayflower the first perpetual motion inventors took out their patents for "Engines which being put in order will cause and mainteyne their own mocions with continuance and without any borrowed force of man, horse, wind, river or brooke," and in the last century they have applied for about 600 patents which are based chiefly on the force of gravity, loss of equilibrium, specific gravity of floats and weights immersed in water or other liquid, accession of receptacles inflated with air or gas under water, compression and subsequent expansion of gases and of the surface tension of liquids. So sanguinely hopeful are these ingenious designers that in many cases they provide brakes to stop their machines if necessary or to prevent any dangerous increase of speed. The care and thought expended on the principle and detail of many of the inventions demonstrate that many men of mental ability cling to the idea that perpetual motion is possible and that they themselves are successfully solving the problem.

How to Shoot a Rattler.

The writer once saw an Indian kill a rattlesnake in a very peculiar manner. The rattler was about ten feet from the Indian, who was resting the rifle on his knee, apparently taking aim. Whenever he moved the weapon a few inches the snake would move around and get exactly in line with it. Then, to show how the thing was done, the Indian moved about the snake in a circle, and the reptile moved as if its tail were on a pivot, always keeping its head and body in line with the gun. The Indian then agreed to bandage his eyes and shoot the snake in the mouth. The writer bandaged the Indian's eyes, and, holding the gun by his side at arm's length, the latter pulled the trigger, and the ball entered the snake's mouth and passed the whole length of its body. "How do you take aim?" was the query. "The snake, he takes aim," was the reply. We have talked with an old hunter on this proposition, and he claims that a rattlesnake will always range directly in line with a gun or stick pointed at it.—Exchange.

None In Sight.

"Any interesting legends about here?" asked the tourist.

"No," returned the native slowly; "ain't never seen any, though you may find 'em if you hunt in the woods."

Why?

Johnny—Isn't a tin horn made of tin, mamma? Mamma—Certainly it is. Johnny—Then how is it that a fog horn isn't made of fog?

The beginning of wisdom is not in the mind, but in the heart.—Abbott.

Development Company Met.

The Wrightsville Beach and Suburban Development Company, recently organized to construct a chain of cottages on the Sound side of Wrightsville Beach, held its annual meeting yesterday noon at the office of Mr. Thos. H. Wright, secretary and treasurer. Eighty per cent of the stock of the company was represented at the meeting and the affairs of the company were discussed in general. Twelve of the 17 cottages built by the company were renewed during the season about to end and it was stated that all would have been rented but for unavoidably delays in the completion of some of them. The officers and directors of the company are as follows: President, Col. J. VanB. Metts; Vice President, H. E. Bonitz; Secretary and Treasurr, Thos. H. Wright; Attorney, Thos. W. Davis, Esq.; W. A. French, Jr.; W. E. Perdew and A. B. Skelding.

Going to Camp Perry, Ohio.

Lieut. Thos. R. Orrell, who will be in charge of the squad from the Second Regiment, North Carolina Guard, and Private A. T. Gibbons, of the Wilmington Light Infantry, who qualified second highest in the Guard for the rifle team to represent North Carolina at the National rifle shoot, to be held next week at Camp Perry, O., will leave tonight to take part in that big event. It is expected that the North Carolina Guard and the Wilmington representatives in the rifle match will be heard from during the big meet.

Crowds Still at Lumina.

In spite of the fact that the seashore Hotel is closed for the season to transient guests, there is still a large crowd there and at the other hotels and cottages on the beach. The crowds at Lumina seem to be as large as ever and the dances seem to lose none of their popularity. The Consolidated Company is expecting a big crowd at the mid-week dance tonight and the service there will be continued as long as the patronage will warrant. There will be plenty of cars to accommodate the crowds as long as they last.

Have you read the Wilmington Furniture Company's ad. in this issue? If not, do so at once. **

Big Mid-Week Dance at Lumina tonight. Express trains at 8 and 8:30. *

LOCAL DOTS.

—First Church of Christ, Scientist, Carolina Place: Services this evening at 8:15 o'clock. All are invited.

—Mr. O. F. Dukes is the authorized agent of The Morning Star at Maxton, and all orders for the paper should be sent through him. He may be found at the office of the Scottish Chief.

—The steamer A. J. Johnson, recently purchased by Capt. Jeff Bradshaw for the Wilmington-Fayetteville line, arrived in port yesterday, clearing in the afternoon for the return trip. The steamer C. W. Lyon was also in port yesterday, clearing in the afternoon.

—John Nixon, charged in Justice Bornemann's court with the larceny of a small amount of money from Emma Williams, a colored lass with whom he was walking on the Castle Haynes road, was found not guilty yesterday and the prosecutrix was taxed with the costs.

—The schooner Mray Sanford, which was recently towed into Southport by the Revenue Cutter Seminole, will probably have her bottom examined by divers, who are here on the Stanley H. Minor, after which she will proceed to her destination, Georgetown, S. C.

—The schooner Stanley H. Minor, which has been here several months undergoing temporary repairs, will probably clear in tow of the New York tug I. J. Merritt in a few days for New York. She will go in charge of Capt. W. S. Tooker, the master. Capt. G. D. Pendleton, representing the owners, who has been here for several months looking after the schooner, has returned to New York by rail.

—Some little excitement was caused at the wharf of the steamer Wilmington early yesterday morning. It is the usual custom of Capt. John W. Harper to fumigate the boat after an excursion for sanitary reasons, and the people who saw the dense volumes of smoke pouring from the ship during the process of fumigation yesterday morning, thought there was a fire, and were about to turn in an alarm. Investigation proved the real cause of the smoke, and there was no further excitement.

GUEST HAS APPENDICITIS.

Miss Katie Hurst, of Georgia, Brought to Hospital for Operation.

Miss Katie Hurst, of Perry, Ga., who has been one of the most attractive guests at the Hotel Tarrymoore, on Wrightsville Beach, having arrived last Saturday with her father, Probate Judge S. T. Hurst, of Huston county, and her sister, Miss Lula Hurst, expecting to spend ten days, became violently ill with appendicitis early last night at the hotel, and her condition became such that the attending physician, Dr. T. S. Burbank, advised an operation at once for appendicitis. She was brought up to the James Walker Memorial Hospital last night on a special car and will undergo an operation this morning at 9 o'clock for the dreaded disease. Miss Hurst was unusually popular at the beach and her misfortune on this occasion is greatly deplored by many friends she has made there during her short stay. Sunday night Miss Hurst suffered an attack, but her condition was not regarded as serious. Dr. George C. Worth was called in and after mild treatment, the case responded readily and Miss Hurst was able to join her friends at the dance at Lumina Monday night. Yesterday, however, she suffered a recurrence of the attack and Dr. Burbank was called in with the result that the diagnosis was at once made certain and the operation was advised. Mr. and Mrs. Keen, formerly of Perry, Ga., Mr. B. O. Stone, and other friends of Judge Hurst at the beach, accompanied the party to the hospital here, and the young woman is being given the best of attention. From the fact that she is the picture of health and has a strong constitution, it is believed that she will stand the operation readily.

ARRESTED FOR KIDNAPPING.

Sequel to Elopement of Young People From Moving Picture Show.

(By Associated Press.)

Norfolk, Va., Aug. 20.—C. L. Martin, of Wilmington, N. C., charged with kidnapping a young girl from her home to Norfolk, was arrested tonight. The name of the girl turned over to her brothers is withheld by the police. She is said to be of a prominently favmily.

The above telegram received by Associated Press last night is the sequel to the sensational elopement of Miss Estelle Sykes and Mr. Martin from the moving picture theatre at the Academy of Music yesterday a week ago. It ill be recalled that Miss Sykes, who is a daughter of Mr. and Mrs. Gus Sykes, of this city, was employed as cashier at the theatre and that young Martin operated the machine. The couple suddenly took it into their heads to elope for a marriage which is said to have been performed somewhere between Wilmington and Norfolk, to which city they continued their visit for the purpose of spending their honeymoon at the Exposition. The parents of the young woman strenuously objected to the match and brothers of the bride immediately set out to Norfolk to overtake the couple. Monday night they telegraphed to Mr. Sykes here that they had young Martin located, but it would be necessary to secure a warrant here before an arrest could be made. The necessary papers were secured from Justice Furlong and were immediately forwarded to Norfolk, with the result as above stated. It was learned last night that the brothers of Miss Sykes would accompany her home today, and that a requisition would be secured for young Martin, so that he may be brought back here for trial. The developments in the case will be awaited with interest by friends of all parties concerned. Miss Sykes is said to be 17 years of age.

Daughters of Confederacy.

At the meeting of Cape Fear Chapter No. 2, United Daughters of the Confederacy, Monday afternoon at the W. L. I. Armory, the delegates recently appointed to attend the State Convention at Greensboro asked and were given more time to definitely decide if they will attend and arrangements were made for exercises next Friday, the anniversary of the founding of the Fayetteville Independent Light Infantry. On this occasion Crosses of Honor will be presented to veterans and one to a son of a member of the Confederate Navy, Mr. James W. Price, a son of the gallant Capt. Jos. W. Price.

The Old New England Sabbath.

A description of the old New England Sabbath is calculated to make restless children of the present day and possibly some of their elders thankful they were not born two centuries ago.

The Sabbath began Saturday afternoon with the going down of the sun.

Sunday morning a horn was loudly blown to announce the hour of worship. Service began at 9 o'clock and lasted for eight hours, with an intermission of one hour for dinner and conversation. In the earliest days the congregation sat on rude benches, their seats being assigned them at town meeting. The service consisted of several parts, which are chronicled in an ancient diary as follows:

"Preliminary prayer or invocation; chapter of Bible read and expounded; psalm in meter, read out line by line by Deacon S.; long prayer on various matters, one hour and a half; sermon of 100 to 250 pages; at close of service, baptism; sinners put on trial, confessed before congregation. Minister C. bowed right and left, no person stirring till he had passed down and out of the meeting house."

A Thumb Shave.

"'Pouce ou cuiller—thumb or spoon?' says the barber, and I give a violent start."

The sailor, a little proud of his French, looked about the room and smiled easily. Then he went on:

"I knowed them barbers in the south of France wasn't up to much. I knowed their ways was queer. But this spoon or thumb business was the limit.

"'Quest ce qu'il y—wot's that?' says I. 'Wot d'ye mean by thumb or spoon?'

"And then that Tarascon barber told me that in his country in shavin' lantern jawed men like me it was customary to plumb out the cheeks so's the razor could get a holt by insertin' a spoon or a thumb into the mouth and pressin' from the inside.

"I said to go ahead and shave me without either spoon or thumb. He wouldn't do it, though, so I chose the thumb. It looked more hygienic. By gosh, I can taste that there thumb yet."—Los Angeles Times.

Caught the Policemen.

All the countryside is laughing at an experience of the police at Lough Neagh, Ireland. An intercounty cockfight was arranged between birds from Londonderry and Antrim and was held on one of the islands in the lough. The police got wind of it and arrived, as they usually do, late. All the available boats had been pressed into use by the spectators, and the police, after trying vainly to secure transportation to the island, determined to swim for it. Just as they arrived the bout ended, and every boat put off for the mainland again. The police had a swim back for their pains, and when they reached the mainland they found that their clothing, over which they had neglected to leave a guard, had disappeared. They had a ten mile march in dripping underclothes to the nearest barracks, where they were put to bed until new uniforms could be procured.—Liverpool Mercury.

Why They Are So Clean.

"How is it that French children are so tidy?" many foreigners in Paris inquire. Because from the time they understand an elementary sentence it is dinned into them that it is very wrong to run fast, to fall or to dirty their dresses in any way, and, above all, it is awful to muss their hair. An ordinary scene in the Bois is where two children arrive in their auto accompanied by a nurse and a governess. They (the children) are dressed in light silk dresses and wear long white gloves. They start to play ball. Every time the ball touches the ground, which happens once in awhile, the nurse rushes up and wipes every bit of sand very carefully off the ball before it is handed back to the children. Is it a wonder that their long gloves are clean?—New York Post.

Ostriches Are Poor Sailors.

"Ostriches are terrible creatures to have aboard ship in a storm," said a sailor. "Knocked about by the waves, they fall and break their legs. We once carried eight superb ostriches. They were good sailors. Their sea appetites were fine. But two days from port a nasty gale overtook us. And then it was pitiful to see those ostriches. The ship's lurches and ducks knocked them off their pins, sent them rolling back and forth, to and fro, wildly, helplessly. Imagine a dozen ostriches, now on their feet, then—bang—on their backs, their long legs in the air, rolling every which way. What you'd expect to happen happened, of course. Their legs broke. You could hear above the storm the sharp crack of the splitting bone. Of those eight fine ostriches only two reached port alive."

BIG ROBBERY ON MAIL CAR.

Pouches Containing Quarter of Million Dollars Stolen.

(By Wire to The Morning Star.)

Lincoln, Neb., Aug. 20.—Three registered mail sacks containing about a quarter of a million dollars disappeared from the Burlington train between Denver and Oxford, Neb., last Sunday night and the postoffice officials have just made the theft public. The train left Denver with seven sacks and but four remained when it reached Oxford. Detectives and postoffice officials are at work on the case.

Superintendent J. M. Butler, of the Sixth Division of Railway Mail Clerks, believes the robbery took place just west of the Nebraska line. Both mail clerks were asleep while the train was passing over long stretches of track with few stations. Butler believes some one slipped into the mail car and threw three sacks out of the window. He has ascertained that the valuables were all in two of the sacks, one being empty.

The sacks were destined for Chicago, and were supposed to be placed on the Chicago train at Oxford, Neb. Postoffice officials have all been warned to be cautious about giving out information concerning the robbery.

Chicago, Aug. 20.—At the general offices of the Burlington road it was said today that they possess no knowledge whatever of the theft of any mail sacks from any train on the road.

WILL COERCE ALABAMA.

Federal Courts Will Be Sustained by Government.

(By Wire to The Morning Star.)

Washington, Aug. 20.—Attorney General Bonaparte has sent the following telegram to United States District Attorney Parsons, at Montgomery, Ala., giving instructions in connection with the Louisville and Nashville'e rate case:

"You are authorized to make public the following statement from this Department:

"It is the duty of the Department of Justice to see that the process from all Federal Courts is duly served.

"This duty exists without any regard to the nature of a litigation in which such process may be the issue, or the parties to the cause. This department has already announced publicly, on more than one occasion, that it would see the process of a Federal Court required executive enforcement, duly enforced without regard to cost or consequences.

"Every Federal Court will be sustained in the execution of its process so far as executive enforcement may be needed, and respect will be exacted to all orders requiring such executive enforcement, passed by a Federal Court in the exercise of the jurisdiction which it has regularly assumed."

BOLD ARABS BADLY ROUTED.

Attacked French Troops and Were Mowed Down.

(By Wire to the Morning Star.)

Casa Blanca, Morocco, Aug. 20.—The Arabs have delivered another attack upon the French force under General Drude, encamped outside this town, but they were routed with very heavy losses. A general uprising of the natives is expected.

The European residents of the coast towns, as well as those who live at Fez, Morocco City and other places in the interior are leaving their homes and seeking safety in flight.

PETER PAN ON THE TURF.

Has Been Sent to Kentucky—Big Winnings.

(By Wire to The Morning Star.)

Saratoga, N. Y., Aug. 20.—James R. Keene's great horse, Peter Pan, closed his racing career as a three-year-old yesterday, when he was shippd to the Castleton stud farm in Kentucky to be turned out for the season. It is doubtful if he will ever be returned to racing. Peter Pan's retirement is due to an injury received recently during his work of training. Peter Pan's turf winnings aggregate $112,390, of which $87,240 was earned this season.

The Bat.

Nearly all bats have the faculty of hibernating. Their hibernation, however, is not perfect—that is to say, that when the warm days occur in the middle of winter they wake up, together with the insects which are their food. Still theirs is a true hibernation trance, differing from sleep, with very low rate of pulse, heart action and respiration. Probably they would endure immersion in water for an hour or two without drowning, as other hibernators have been found to do.

Just the Other Way.

"I am delighted," said the old friend who had called, "to find that you agree with your husband in everything, Mrs. Henpeck."

"Indeed!" answered that estimable lady. "If you will take the pains to investigate our domestic relations, sir, you will find that it is Mr Henpeck who agrees with me in everything."

His Size.

"Sam, what would you do if you had a million dollars?"

"Fo' de Lawd's sake! I'm sho' I dunno wot I'd do ef I had a million dollahs, but I know wot I'd do ef I had $2. I've bin waitin' two yeahs ter git married."—Judge.

Big Mid-Week Dance at Lumina tonight. Express trains at 8 and 8:30.

"This Is Thim."

Not in a thousand years will blood forget blood, even in this great nation of ours.

The column had been winding all morning through open country. Now it was approaching close woodland and high grass. The captain of the company, acting as advance guard, knew that trouble was probably lying ahead. He called to him his pet sergeant—the man he had been saving through all the day for the time when a "best" man was needed.

"Sergeant O'Hare," he said, "I want you to pick out from the company any six men you choose and go ahead as a point. You can have anybody you want—only choose the best you know. I think we will be fired on from those low hills."

Sergeant O'Hare's eyes searched the company.

"Sullivan!" he called. "McCarthy! O'Donnell! Moriarity! McGinnis!" He hesitated. His glance wandered uneasily up and down the line. Big, honest Swedes, burly Teutons, lanky Yankees, there were in plenty. But where—oh, yes, there on the left of the line—that bright eyed, pug nosed, red headed little beggar, nodding and imploring attention with his twisted up face. The sergeant's brow cleared.

"Lynch!" he called, with a sigh of relief. "This is thim, sorr," he added, turning to the captain.—Outing.

The Remarkable Part.

One day some Americans on a visit to Wales expressed a wish to see a certain old and historic church. The incumbent was only too pleased to show them around, especially as he believed it would end in a donation being given to his parochial funds. He is as proud of the school as he is of the church and finished up by asking them in there also and inviting them to question the scholars.

One of the party accepted the invitation.

"Can you tell me, little boy," he said to one lad, "who George Washington was?"

"Iss, surr," said he; "he wass a 'Merrycan gen'ral."

"Quite right," said the American. "And can you tell me what George Washington was remarkable for?"

"Iss, surr; he was remarkable 'cos 'e wass a 'Merrycan an' told the trewth."

The American didn't question further.—Cassell's Magazine.

The Tea Taster.

What are a tea taster's duties? He must distinguish the mixture of two blends; point out in each separate instance if the mixtures are of equal grades; he must know to a nicety the difference between a pure brand and an inferior one; he must know the taste of every individual sort of tea—not an easy thing, when it is remembered that brands of tea are many and the blends are constantly being reblended. In ten years' time a tea taster cannot be deceived as to the history or nationality of any tea in the world. He can prevent his firm from being deceived, for he has drunk tea with milk, cream, lemon, straight, served according to the peculiar wish of every nation. He is sent to China, Japan, Russia, India, to study the tea brew of each tea drinking nation.—Boston Herald.

Careful Boy.

Two American tourists on their way to Abbotsford were in doubt about the road to take and the time it would occupy to get there. Hailing a lad who happened to be passing, they put the necessary questions. The native replied by showing the route, but did not know how long it would take to get there. The tourists resumed their journey, but had scarcely gone a hundred yards when a shout from the boy made them turn.

"It will take you an hour," called the boy at the pitch of his voice.

"Then why the deuce didn't you tell us that before?" returned one of the Americans.

"I couldna tell ye afore I knew hoo fast ye could walk."—Dundee Advertiser.

A Beautiful Bull.

The foreman of a grand jury in the west of Ireland had been presented for some public service with a gold watch, of which he was very proud, and as he displayed it at a dinner of the grand jury bets were made by members as to whose watch was most accurate. At last some one suggested that it was impossible to decide.

"Oh," said the foreman, "there's no difficulty about that! There's a sundial in the garden, and we'll take a lantern and decide the bets that way."

Diplomatic.

Stranger (watching a big row in a village inn to the landlord)—Well, they are all going for each other pretty freely except that big fellow. He lets every one hit him and does nothing. Why is that? Landlord—Oh, he wants to be mayor this year, so he doesn't want to fall out with any one.—Fliegende Blatter.

Won't Always Work.

"When in Rome, do as the Romans do," he quoted.

"If you intend to act upon that theory throughout life," she returned, "let us hope that you never will have occasion to visit an insane asylum for any purpose."

Dead Cities.

"What became of Nineveh?" asked the Sunday school teacher.

"It was destroyed," said Johnny promptly.

"And what became of Tyre?"

"Punctured."—Cleveland Leader.

Misunderstandings and minding other people's business cause most of the trouble in this world.—Manchester Union.

The Sun, the Moon and the Tides.

Most persons suppose that the moon alone is responsible for the phenomenon of tides, but the attraction of the sun is also an important factor. Of course the distance of the sun from the earth is unthinkably greater than that of the moon, but its mass is so enormous that it has a considerable tide producing influence. The force which the sun exerts is the same on both sides of the earth at the same time, the tide producing force of the great orb being about four-tenths that of the moon. At the time of both new and full moons the "wane spheroids produced by both the sun and the moon have their axes coincident"—that is to say, the two great orbs unite their energies on the fluids of our planet, and as a result the tides are higher than the average for the remaining portions of the month. These are the "spring tides." The "neap tides" come in the time of the moon's first and third quarter and are not as great as the average, because the moon and the sun are each working in opposition to the other.

Alive Four Months In a Grave.

Hari Das, the great Hindoo fakir, who lived in the first half of the nineteenth century, is the only wonder worker of modern times who has ever allowed himself to be buried in the ground for months. In the year 1839 Hari told General Ventura that for a certain fee he would allow a committee to test the claims which he made of being able to die and remain dead for months and then come to life again. When all was arranged Hari hypnotized himself to such a degree that his circulation was wholly stopped. When he was pronounced dead to all intents and purposes he was buried in a garden and a high wall built around the grave. Guards were stationed on the wall so that interference or deception would be impossible. Four months later Hari was exhumed according to agreement, and after a few minutes of vigorous rubbing of his body by friends he opened his eyes, and an hour later he was well and able to walk. The fakir was clean shaven when buried and is said to have come out of the grave in the same shape, a fact which is cited to prove that vitality must have been completely suspended.

Seventeenth Century Superstitions.

That it is a very unfortunate thing for a man to meete early in a morning an ill favored man or woman, a rough footed Hen, a shag-haird Dogge, or a blacke Cat. That it is a signe of death to some in that house, where Crickets have bin many yeeres, if on a sudden they forsake the Chimney Corner. That if a man dream of egs or fire he shall heare of anger. That to dreame of the devil is good lucke. That to dreame of gold good lucke, but of silver ill. That if a man be born in the daytime he shall be unfortunate. That if a child be born with a Caule on his head he shall be very fortunate. That when the palme of the right hand itcheth it is a shrewd sign he shall receive money. That it is a great signe of ill lucke it Rats gnaw a mans cloathes. That it is naught for any man to give a paire of Knives to his sweetheart, for feare it cuts away all love that is between them. That it is ill lucke to have the saltseller fall toward you.

Likes Being Hunted.

The extraordinary intelligence and skill displayed by reynard when being hunted makes it extremely probable that he, in common with the huntsman and the hounds, feels the keen pleasure of the pride of art—an important constituent of the spirit of the sport. In proof of this, an old fox, when fresh, has often been observed to wait for the hounds, apparently with the purpose of drawing them on, and so giving an opportunity for the display of his skill. The fox owes his present existence in England to his skill in providing sport, and it is not therefore unreasonable to suppose that he has acquired the sporting instinct, just as the pointer, the hunter and the terrier certainly enter into the spirit of the sport for which they have been bred and to which, therefore, they owe their existence.—London Standard.

—Wilson, Aug. 19: Yesterday at noon Howard Johnson a negro entered the home of Nora Mabry, a married colored woman, and asked her to sit on his lap. She refused and he shot her so she died a few hours later. Johnson emerged from the house with the pistol in his hand and ran. He was captured after a short chase.

—Kingston, N. C., Aug. 19.: Mr. T. C. Wooten went to Greenville today to file the complaint in the case of King et al vs. the Commissioners of Pitt county. This is the suit being brought by certain individuals to prevent the sale of about $90,000 of bonds, because of alleged fraud in the election The complaint, which is very lengthy sets out all the allegations in full detail. A great deal of feeling exists on both sides, in this case and the general public is anxiously awaiting the trial.

—Lumberton Robesonian: Mr. A. L. Ivey, who lives near Maxton, on the place of Mr. W. S. McNair of Maxton, was in Lumberton Saturday. Mr. Ivey is a very successful melon raiser. From twenty acres he has gotten so far this year eleven car loads of watermelons and he will get two or three more car loads. For the 11 car loads—car loads ranging from 1,000 to 1,500 melons—he has realized $1,595, net. The first two cars sold averaging $151. Successful melon raisers have realized handsomely from their melon crops this year.

—Wilson, Aug. 19: As to the killing of Bob Barnes near Moyton, last Saturday, the following are the facts in the case. Barnes had gone to Herbert Bynum's house; they were sitting on the front porch; Barnes pulled out this pistol and in a playful mood ordered Bynum go in his house; Bynum obeyed; Bynum told him he would follow any command he made. "Then," said Barnes get that gun from the rack on the wall." Bynum complied. In taking it down it was snatched from Bynum's hand by Barnes—the lock struck the door facing and the gun was discharged. The cornoner's jury exonerated Bynum.

—Spencer, August 19: Linton Wray, a traveling salesman for a Chicago house, is in a dangerous condition at the home of his father, J. L. Wray, in Spencer, as a result of falling through an elavator hole at a livery stable here Saturday night. Jas. S. Wray, a brother was also injuried at the same and inthe same manner but is now out of danger. The brothers, it is said, were in a playful scuffle in the garret of the stable and in the darkness missed thir footing falling about twenty feet through an opening to the ground. Both men were unconscious for about an hour and Mr. Linton Wray sustained severe internal injuries which renders his condition precautious today.

Spencer, Aug. 19: Fire which started at four o'clock Sunday morning in a storage room over the office of the master mechanic of the Southern Railway here gutted the building and destroyed many hundreds of dollars worth of material and supplies. Both the Southern shop fire departments and that of the Spencer municipal team responded to the alarm. The fire was subdued in an hour and a half of hard fighting. The main line of hose used by the Spencer firemen was connected to a hydrant which necessitated crossing from a street car track and a car rushing from Salisbury to the scene of the fire ran across the hose cutting it into three pieces and causing a delay of fifteen minutes at a most critical time. One item which is of greatest inconvenience to the company was the loss of its records filed in the building.

Why Is Sugar Sweet.

If sugar did not dissolve in the mouth you could not taste the sweet. GROVE'S TASTELESS CHILL TONIC is as strong as the strongest bitter tonic, but you do not taste the bitter because the ingredients do not dissolve in the mouth, but do dissolve readily in the acids of the stomach. Is just as good for Grown People as for Children. The First and Original Tasteless Chill Tonic. The Standard for 30 years. 50 cents.

"Everybody Should Know."

says C. G. Hays, a prominent business man of Bluff, Mo., that Bucklen's Arnica Salve is the quickest and surest healing salve ever applied to a sore, burn or wound, or to a case of piles. I've used it and know what I'm talking about." Guaranteed by R. R. Bellamy, Druggist, 25c.

THE COTTON MARKET.

(By Wire to The Morning Star.)

New York, Aug. 20.—The cotton market was a little more active today. Fluctuations were irregular, with the close quiet and steady, net unchanged to three points lower. Sales for the day were estimated at 125,000 bales. The opening was steady at a decline of 2 to 5 points in response to lower cables and private reports that the drought in the Southwest had been broken. Around 12 cents for January, however, there was quite an active demand for covering of shorts and European account, which some thought to be for spinners, and during the forenoon prices worked up to a net advance of about 5 to 6 points on the active months. The weekly weather report read more favorable than looked for, reporting beneficial showers during the week in Texas and the market eased off in the afternoon on this and the favorable Western belt forecast, which was followed by liquidation of early buyers. The close was within two or three points of the lowest for the session. Private mail advices from the Southwest confirmed the reports of showers during the last few days, but many of them stated that the rain was too late to prevent damage to the crop.

Receipts at the ports today, 719 bales, against 1,942 last week, and 10,128 last year. For the week, 12,000 bales, against 8,280 last week, and 49,414 last year. Today's receipts at New Orleans, 94 bales, against 256 last year, and at Houston, 2,047 bales, against 9,988 last year.

Spot closed quiet; middling uplands, 13.25; middling Gulf, 13.50; sales, 208 bales.

THE ADVANTAGE

of beautiful surroundings cannot be over-estimated in any recuperative system.

Recognizing the truth of this, some years ago The Greensboro Keeley Institute purchased "Blandwood," the historic residence of the late Gov. Morehead, and one of them ost beautiful natural sites in the entire South. In a great grove of oak trees, surrounded by well kept lawns, evergreens, and flowers, stands the largest branch home of the World-Famous Keeley Cure for liquor and drug addictions, the tobacco habit and nerve exhaustion.

Here is found that rare combination of country and city life, insuring all privacy and seclusion desired and yet within five minutes' walk of the city's principal thoroughfare.

LAW BREAKERS TO SUFFER

Nothing Will Deter Prosecution of Violators of Republic's Laws—So Mr. Roosevelt Said at Pilgrim's Celebration.

(By Wire to the Morning Star.)

Provinceown, Mass., Aug. 20.—The laying of the corner stone of the Cape Cod Pilgrims' memorial monument here today gave President Roosevelt his first opportunity of the Summer to break silence upon public questions and the forty minute speech which he delivered from a platform on top of Town Hill was one of vigor and directness upon matters of National importance. The feature of his address was his advocacy of a National incorporation law and his stand in relation to violators of the law, especially corporations. With emphasis he declared that the administration would not waver in its determination to punish certain malefactors of great wealth. Continuing he said:

"There will be no change in the policy we have steadily pursued; no let up in the effort to secure the honest observance of the law, for I regard this contest as one to determine who shall rule this government—the people through their governmental representatives or a few ruthless and determined men whose wealth makes them particularly formidable because they hide behind the breast works of corporate organizations."

The President declared that the government would undertake no action of a vindictive type, and above all no action which would inflict great or unmerited suffering upon innocent stockholders and upon the public as a whole. He said that the government's policy in its ultimate anaysis meant "a healthy and prosperous transportation of the business activites of honest business men and honest corporations.'"

Among other things the President said:

"During the present trouble with the stock market, I have, of course, received countless requests and suggestions, public and private, that I should say or do something to ease the situation.

"There is a world-wide financial disturbance. It is felt in the bourses of Paris and Berlin and British consols are lower, while prices of railway securities have also depreciated. On the New York Stock Exchange the disturbance has been particularly severe—most of it, I believe to be due to matters not particularly confined to the United States and to matters wholly unconnected with any governmental action; but it may well be that the determination of the government, in which, gentlemen, it will not aver, to punish certain malefactors of great wealth, has been responsible for something of the troubles at least to the extent of having caused these men to combine about as much financial stress as they possibly can in order to discredit the policy of the government and thereby to secure a reversal of that policy so that they may enjoy the fruits of their own evil doing. That they have misled many good people into believing that such reversal of that policy is possible. If so I am sorry, but it will not alter my attitude. Once for all, let me say that as far as I am concerned, and for the eighteen months of my administration, there will be no change in the policy we have steadily pursued, nor let up in the effort to secure the honest observance of the law, for I regard this contest as one to determine who shall rule this government—the people through their governmental agents or a few ruthless and determined men whose wealth makes them particularly formidable, because they hide behind the breast works of corporate organizations.

"I wish there to be no mistake on this point. It is to ask no man to prosecute criminals, rich or poor. But I desire no less emphatically to have it understood that we have undertaken and will undertake no action of a vindictive type, and above all, no action which shall inflict great or unmerited suffering upon the innocent stockholders and upon the public as a whole. Our purpose is to act with the minimum of harshness compatible with obtaining our ends. In the man of great wealth who has earned his wealth honestly and used it wisely, we recognize a good citizen worthy of all pride and respect. Business can only be done under modern conditions through corporations and our purpose is to heartily favor the corporations that do well. The administration appreciates that liberal but honest profit for legitimate promoters and generous dividends for capital employed either in founding or continuing an honest business venture, are the factors necessary for successful corporate activity, and, therefore, for generally prosperous business conditions.

"All these are compatible with fair dealings as between man and man and rigid obedience to the law. Our aim is to help every honest man, every honest corporation; and our policy means in the ultimate analysis a healthy and prosperous expansion of business activities of honest business men and honest corporations.

"At one point President Roosevelt departed for a moment from his address as originally prepared to remark:

"All that I have said as to desirable and undesirable citizens remains true."

Ten thousand persons were crowded into the little town and at least one-third of them heard the President's remarks. At the conclusion of the programme President Roosevelt was driven to the wharf where he boarded the Mayflower which sailed at 4 o'clock on the return to Oyster Bay.

BRUTAL CRIME IN NEW JERSEY

Negro Killed Two Women Robbed House After Doing Bloody Deed.

ONE'S HEAD WAS SEVERED

Brute First Set Barn On Fire and While Men Were Fighting Fire He Went to House and Committed Crime.

(By Wire to the Morning Star.)

Camden, N. J., Aug. 20.—Mrs. Francis Herner, aged 67 years, wife of Edward Herner, a farmer on the Browning road near Morehantville, and Mrs. Victoria Napoli, a servant were chopped to death today in their home, it is charged by Charles Gibson, a negro who was formerly employed on the farm. The assasin first set fire to the Herner barn. While Herner and Mrs. Napoli's husband were trying to rescue some of the horses from the barn Mrs. Herner and her servant came upon the negro in the act of robbing the house. The robber attacked the women with an ax and practically hacked them to pieces Mrs. Herner's head was severed and Mrs. Napoli's head was crushed in and her body covered with gashes.

Herner and others who were at the fire returned to the house to find the body of Mrs. Herner lying in a pool of blood and Mrs. Napoli still alive was lying nearby covered with blood. She died without regaining consciousness shortly after being admitted to a hospital in this city. Two gold watches and a sum of money had been taken from the house and the police located the watch in a pawn shop in Philadelphia where they had been pledged by a negro. The pawn broker, according to the police, identified Gibson as the negro who pawned the watches and he was arrested. Tickets for the time pieces were found in his possession.

Stephen Dorsey, another negro who was with Gibson when it is alleged he went to Philadelphia and pawned the watches, was also arrested though the police do not believe he had anything to do with the murder. Gibson who was discharged by Harner some time ago applied for work at the farm yesterday and was toldhe could sleep in the barn and have work in the morning. Early this morning farmers who were running to the fire declare that they saw the negro fleeing from the Herner home. Gibson refused to make any statement regarding the murder and his supposed connection with it, but when one of the watches recovered from the shop, and which was marked with the name "Herner" was shown to him and he was asked if he knew the ower he is sadi to have replied, "Yes, I'm sorry for him."

BANK COMPLETELY LOOTED.

More Than Capital Stock of Macon Bank Gone.

(By Wire to The Morning Star.)

Macon, Ga., Aug. 20.—The auditors' report of the condition of the Exchange Bank, which recently went into the hands, of a receiver, created a sensation when read in the stockholders' meeting, compared with the figures found on books as reported by the receivers when they took charge. It was found that the entire capital and surplus had disappeared, and there was an actual deficit of $8,500.

Cashier C. M. Orr's daily balance book covering 1905 to January, 1907, had disappeared and this blocked comparison with the individual deposit account on the general ledger for that period. The auditors say in the report:

"On one of the ledgers A. to J. the errors were so numerous we had to practically re-write the figures. On many of the ledger accounts we had to procure the original cancelled checks and deposit slips and foot them separately. The record on the individual ledgers of the overdrafts was in such confusion that we did not finish verifying it until the 17th instant, nothwithstanding the number of accountants engaged upon it. The loans and discounts are in such shape that one man has been engaged upon them exclusively and several other men a part of the time. Taken as a whole, the books of this bank are unequalled in our experience for inaccurate work."

THE TELEGRAPHERS' STRIKE.

Railway Lines Not to Handle Comcial Business—Situation.

(By Wire to the Morning Star.)

Chicago, Aug. 20.—General Superintendent Capen, of the Postal Telegraph Company, said today that his company has resumed telegraphic communication with all points in Canada. The Canadian connections of the Postal Company are over the wires of the Canadian Pacific Railway and the officials of the Telegraphers' Union declared today that the railway operators will not be allowed to handle the Postal business.

Both companies today reported themselves as being able to handle all current business, but at the union headquarters it was asserted with much confidence that both companies are badly crippled. The operating forces of both the Postal and Western Union on the board of trade were again increased today.

GOVERNOR GLENN FOR COMPROMISE

Makes Suggestion to Southern Railway's Counsel at New York Inquiry.

WANTS ALL SUITS STOPPED

Plan to Let Rate Case Go to Supreme Court and Be Passed Upon. The Southern's Legislative Lobby is Denied.

(By Wire to the Morning Star.)

New York, Aug. 20.—When the taking of testimony in the suit of the Southern Railway Company to have declared invalid the North Carolina rate law was resumed today, R. M. Taylor, general manager of the Mobile & Ohio Railroad Company, was the first witness called. He described the country east of Louisiana and south of the Potomac as producing States, which send commodities to all the markets of the world. He said that 85 per cent. of the railroad business done in North Carolina is inter-State business.

Mr. Taylor said he found in his railroad experience that it cost more to operate local business on a railroad than it did to carry on all other business of a road. He agreed with a preceeding witness, that it cost from 15 to 20 cents more to earn one dollar on local railroad business than it did to earn the same amount on all other railroad business. He said that labor and material for the last nine months have gone up. Railroad labor has increased in price, wages have changed, while car building material is away up. He said he could not answer a question as to the cost of carrying a ton of freight a mile inter-State; he did not believe there was any system whereby a conclusion could be reached on this point.

If given sufficient time he said he would produce before the master a statement regarding the Southern Railway's freight business. He said it would be comparatively easy to separate the inter-State freight revenue from that of the intra-State.

Mr. Taylor was asked what amount of money was set aside to be used for lobbying purposes for the Southern Railway. "I know of no such account," he replied, and "furthermore I never heard of any such thing."

Mr. Taylor said that if lower rates were gven to cities and towns along the Southern Railway it might help build up those places. He said that if the Southern Railway was permitted to follow its present course it would bring about greater prosperity in North Carolina. The Commission adjourned to meet in Washington next Friday morning.

Governor Glenn, just previous to his departure for home last night, had a conference with A. P. Thom, general counsel of the Southern Railway, at which he suggested the taking of testimony be stopped until the two suits now pending in court are appealed, so that the Supreme Court of the United States court can pass on the jurisdiction of the two courts.

The governor also suggested, as another course, that the railroads stop their suits and try and live under the two and quarter cent rate, and if after giving the law a trial they find that they cannot continue under it and live, then they should appeal to the people in the State to right the wrong.

Mr. Thom told Governor Glen that he would bring his suggestions to the attention of the Southern Railway officials.

FATAL STABBING AFFAIR.

Southern Railway Conductor Wounded at Asheville, N. C.

(By Wire to the Morning Star.)

Asheville, N. C., Aug. 20.—Capt. J. W. Brensen, a Southern Railway conductor, was stabbed and probably fatally injured here early tonight by Ed. Miller, a well-known character about town. Miller was arrested and held without bail. The trouble arose over a debt which Brenson was attempting to collect.
